

Conservation Assessment

Description

The CA is a charge to pay for the energy conservation assessment as mandated by the Maine Public Utilities Commission (MPUC).

Application

The Conservation Assessment (CA) applies to all rate schedules specifying that Rate Schedule CA applies to that schedule.

N Computation of the CA

The computation of the CA on a per kilowatt hour basis is equal to the following: Eastern Maine Electric Cooperative's Annual Procurement Amount (P) plus the reconciliation adjustment (R) divided by the estimated kilowatt hours delivered (K) for the period covered.

$$CA = \frac{P+R}{K}$$

And where R consists of the difference between the prior years Annual Procurement Amount and the amount recovered through the CA in that year plus correction of errors or erroneous reporting.

N Method

The CA will be a monthly charge for a twelve month period beginning July 1st with annual reconciliation.

N Adjustment of the Monthly Recovery Level

The monthly recovery level as determined for the period beginning July 1st is subject to monthly adjustments.

Effective Date: July 1, 2015
